Marine generator 30 GTA/GTAC 30 kVA

[Marine generators 30 GTA/GTAC 30 kVA 1800 RPM](#)

The 30 GTA/GTAC is a three phases marine generator set assembled on a 4 cylinder Mitsubishi engine block, which performs 24,0 kW - 30,0 kVA at 1800 rpm and 60 Hz. It is a very compact marine generator, suitable for those commercial boats with a high electrical demand, but restricted space in their engine rooms. With the same size as its predecessor, the 25 GTA/GTAC, the 30 GTA/GTAC performs 5,7 kVA - 4,5 kW more, thanks to its powerful engine block. The sound shield (canopy) version provides a quiet and noiseless navigation. There is a wide range of kits at disposal, for those boats which requires a demanding configuration, also synchronism for parallel operation, and DNV type approval from IACS, for those boats which demands the highest standards in terms of security.

KVA	30 KVA
Max RPM	1800 RPM
Maximum active power	24 KW
Frequency	60 HZ
Phases	Three-Phase
Total lenght with canopy	1310 MM
Total width with canopy	610 MM
Total height with canopy	698 MM
Total lenght without canopy	1140 MM
Total width without canopy	610 MM
Total height without canopy	662 MM
